

# Frosted Vinyl

Product Specifications & Technical Data

V1.07.22

## Product Description

Use Frosted Vinyl to customize glass and window surfaces. The clear frosted surface allows lighting through to provide an etched glass look. The vinyl is removable so you can customize your glass surfaces without permanency. This specialty vinyl works like regular vinyl in that it may be loaded directly into a Silhouette cutting machine and does not require the use of a cutting mat. Recommended use with transfer tape to move cut-out image from original material backing onto intended project surface.

## Recommended Use

Optimal for use with Silhouette and other brand cutting machines. Product may be applied onto hard flat and mildly textured surfaces. For indoor/outdoor use.

## Adhesive Specifications

Solvent polyacrylate, permanent bond

## Release Paper Specifications

Silicone coated release liner to provide easy ability to weed cut-out vinyl from product backing.

## Technical Data

---

### Product Thickness:

150 micron / 0.15 mm

---

### Product Dimensions:

9 in x 4 ft (22.9 cm x 1.22 m), continuous roll format

---

### Product Surface Treatment:

Semi-smooth fine grit; Product is translucent, so the color may adopt some of the coloring properties of the project surface.

---

### Printable:

No

---

### Shelf Life:

2 years (in original packaging at 20°C/68°F and 50% relative humidity)

---

### Application Instructions:

Move cut-out designs from original product liner onto project surface with Standard Tack Transfer Tape.

---

### Notes for Use:

Clean project surface thoroughly prior to application. Dust, grease, and other contaminants may negatively impact proper adhesion.

---
