

Transfer Tape

Product Description

Use Transfer Tape to move cut-out images from the original material backing onto an intended project surface (such as a wall, window, or other smooth surface). Transfer tape is not a material which is cut by a Silhouette cutting machine. It is a companion product for use with all vinyl types.

Recommended Use

For use with Silhouette matte, glossy, metallic, wood, carbon fiber, reflective, chalkboard, whiteboard, frosted, glow-in-the-dark, and stencil vinyl. It can also be used with other non-Silhouette brand vinyl with similar textures but results cannot be guaranteed.

Adhesive Specifications

Standard adhesive

Release Paper Specifications

Silicone coated release liner to provide easy ability to weed cut-out vinyl from product backing.

Technical Data

Product Thickness:

75 micron / 0.075 mm

Product Dimensions:

9 in x 10 ft (22.9 cm x 3.05 m), or 12 in x 6 ft (30.5 cm x 1.83 m), continuous roll format

Printable:

No

Shelf Life:

2 years (in original packaging at 20°C/68°F and 50% relative humidity)

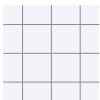

Application Instructions:

Cut the transfer tape to the size of your design and peel from the backing. Place the transfer tape over the weeded vinyl design and press firmly to adhere to the vinyl. Then, peel the transfer tape and the vinyl away from the vinyl backing and apply to project surface.

Notes for Use:

Lay weeded vinyl onto a flat surface and carefully press transfer tape evenly onto vinyl surface from one side to the other using a scraper tool.

Color Options

Clear (with printed grid)
